

FAQ for 5/30/19

The Building Project Team thought we would share more details about the new parking lot. Underneath the soil is one of our stormwater management systems, designed to corral the water that enters our property from Haycock Elementary and Westmoreland Street. Once that system was buried, the contractors graded (and regraded) the area, in preparation for the next steps. Soon you'll see curbing, asphalt, and plantings appear. This should happen in the next four weeks, so keep a lookout!

If you have any questions about the building project, feel free to email us at bptf@templerodefshalom.org
