

Weekly Update 9/19/19

Wow – there's much to report on both of the sites where construction work has been focused! In the picture above, you can see the entire foundation for the clergy/classroom addition. It has been waterproofed, and they are preparing to build the next level, which will be the classroom level.

Furthermore, in just one week, amazing progress has been made on the Small Sanctuary! In the picture below, the concrete walls that you can see are the foundation for the patio that will be adjacent to the Small Sanctuary. The clergy have been excitedly dreaming about ways to use that patio space during some services, as we will be able to open the doors separating the Small Sanctuary and the patio, allowing for a natural connection between the two spaces.

Please note: as thrilling as it is to see the construction progress, make sure that you are looking at it through a window (or via these updates), NOT by going onto the site itself, even if the workers have left for the day. This is a safety issue – YOUR safety, which we greatly value!

If you have any questions about the building project, feel free to email us at bptf@templerodefshalom.org
