

Weekly Update 1.16.20

Reyna Pratt, Chair of the Building Project Task Force, provides our updates as construction progresses.

The steel installation progress continues to excite us. The crew is close to being finished with the clergy/classroom addition and will soon progress onto the small sanctuary. This picture shows the entire structure and truly gives a sense of the shape of this addition.

Here is a picture taken from under the structure, looking up. You can see how much goes into making the frame of a building!

Meanwhile, there is night-time work going on with the HVAC system. For those who have been a bit chilly in the North Wing and Adult Lounge recently, rest assured that the crew is working hard to remedy the situation!

As always, if you have any questions, feel free to email us at bptf@templerodefshalom.org.
