

4.30.2020 Weekly Update

Reyna Pratt, Chair of the Building Project Task Force, provides our updates as construction progresses.

It's incredible how much demolition work has been done in a week. As familiar as I am with the construction, I couldn't even identify the locations associated with the photos below without some help!

The picture above was taken while standing next to the South Wing door (which is to the right and behind the photographer). This space used to be the copy room, the spaces occupied by the admin staff, even the clergy conference room. If you look toward the back, you'll see the door that connects to the bridge to the new clergy suite.

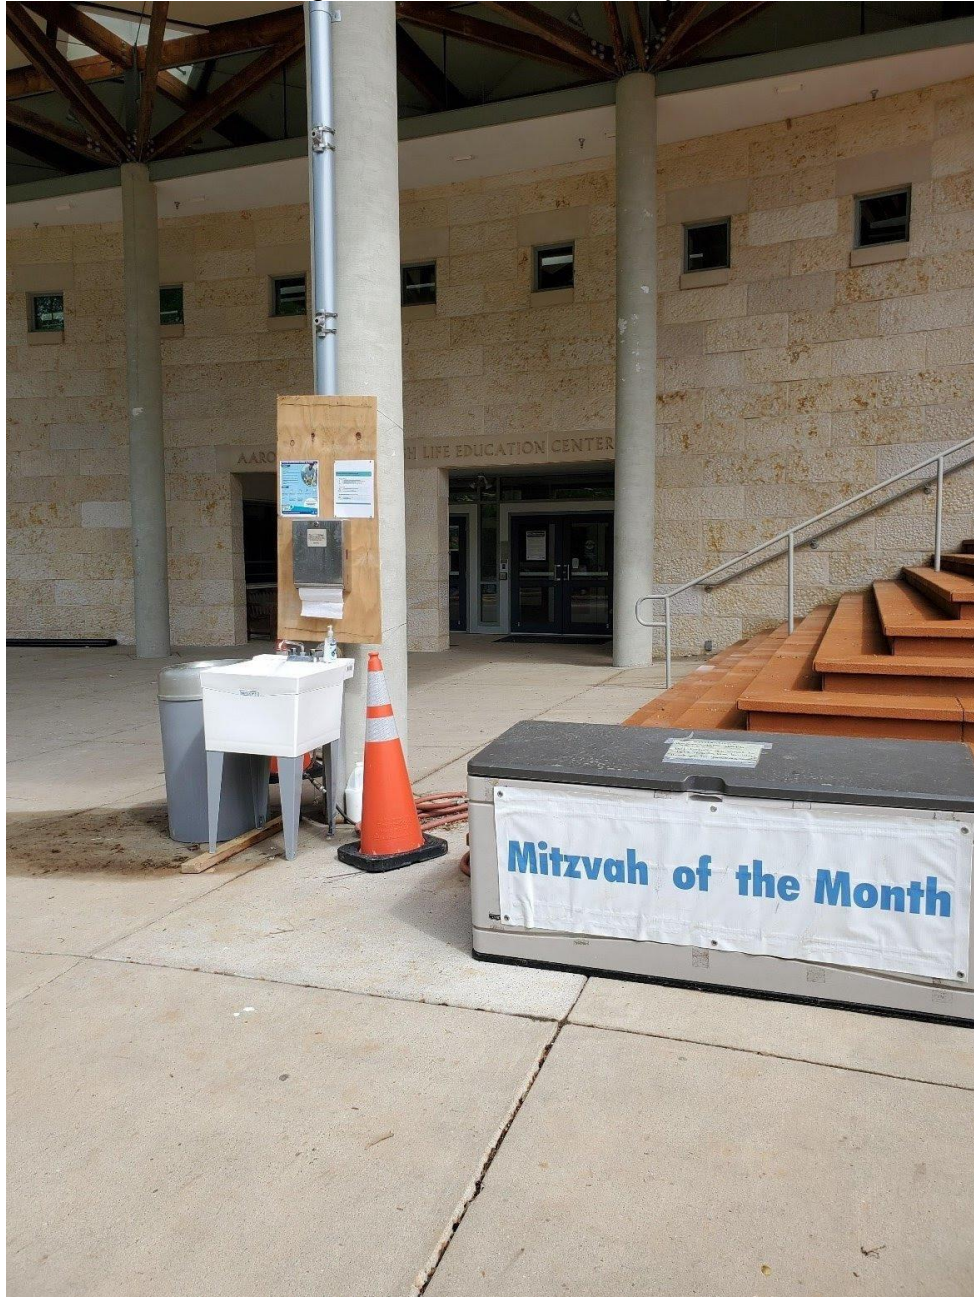

This picture was taken in the Adult Lounge, standing where the piano used to be. To the right you can see the windows and to the left you can see an opening that leads to the current sanctuary. It looks unrecognizable, don't you think?

The picture above was taken in the former Clergy Suite, looking at Rabbi Schwartzman's former office! Also unrecognizable!

The construction team continues to pay close attention to CDC guidelines, including shifting their schedule to allow for deep cleaning every Friday. They have even installed an outside sink for handwashing outside our school lobby, as shown below.

We remain incredibly grateful that the construction team is allowed to work, recognizing that this can change at a moment's notice. We continue to hope for the best and will keep you posted, of course.

As always, please reach out if you have any questions: bptf@templerodefshalom.org

P.S. Click [here](#) for a short, amusing timelapse video of the exterior construction.
