

8.27.2020 Weekly Update

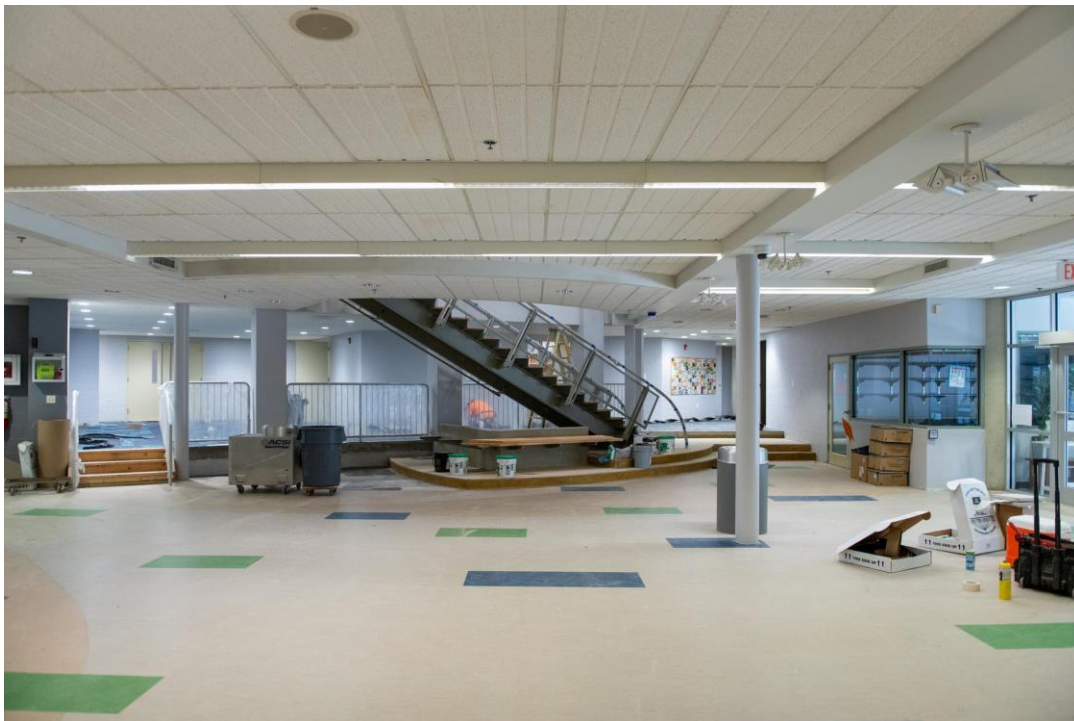

Reyna Pratt, Chair of the Building Project Task Force, provides our updates as construction progresses.

I am super excited to start sharing photos of one of the playgrounds. The two photos below are of the “little ones” playground – the space for our littlest children to play, and they are going to have a great time on the structures that have been installed. The surface is a poured in place rubber surface (the black mounds have now been covered with different colors of rubber). I’m also thrilled to see how light and clean the space looks. I was getting pretty tired of looking at mud!

As for the inside, some great progress has been made in the school lobby and the surrounding spaces. Note the new floor of the lobby. I love how the colors liven up the space, and the new lights and ceiling tiles really help it sparkle!

If you look toward the back of the photo above, you'll see that the "lobby" space outside of the Multipurpose Room is now easily visible from the school lobby AND it has a

brand-new carpet. You can get a closer view of the carpet in the photo below. (The MPR will have a new name, look, and feel when construction is done.)

As always, please reach out if you have any questions: bptf@templerodefshalom.org
