A National Interfaith Webinar on the Rozana Gaza Mobile Clinic

Sunday November 9, 2025, 1:00 PM

Please join us for an Interfaith webinar focusing on the life-saving work of the new Gaza Mobile Clinic run by Rozana: Health Diplomacy, an international NGO. Working out of a large tent in central Gaza, our dedicated staff of Gazan medical professionals are now treating displaced Palestinian patients every day--healing wounds, addressing a variety of urgent health needs and dispensing medication free of charge.

FEATURED SPEAKER: Mohammad Asideh, executive director of Rozana's Ramallah office. Asideh has played the leading role in creating the Rozana Gaza Mobile Clinic, coordinating closely with our medical and administrative staff inside Gaza.

Moderating the webinar conversation will be Kenneth Bob, chair of Rozana USA.
